

SPECIALITY LINE

Salmon & Rice

- **Fresh salmon.** A complete food for adult dogs that are intolerant to meat proteins. Based on fresh North Sea salmon, it is rich in Omega 3 and protects your dog's heart.
- **High digestibility.** The salmon and the rice guarantee the correct supply of proteins and carbohydrates. Indicated for dogs with digestive problems.
- **Skin diseases.** This food is especially indicated for dogs with skin diseases, like dermatitis, dandruff, itching, and for dogs with a light coat.

package size: 3kg and 15kg

USE INSTRUCTIONS It can be used as is or moistened with warm water or broth. Amounts may vary depending on the special needs of some dogs.

COMPOSITION - Fresh salmon (min. 28%), corn, rice (min. 15%), sunflower oil, sugar beet pulp, herring meal, brewer's yeast, animal protein hydrolysates, Yucca Schidigera, cystine, F.O.S. (Fructooligosaccharides) 381 mg/kg, M.O.S. (Mannanooligosaccharides) 381 mg/kg.

ANALYTICAL CONSTITUENTS - Crude Protein 24% - Crude Oils & Fats 12% Crude Fibres 2.5% - Crude Ash 7.5% - Omega 6 1.81% - Omega 3 1.08%

NUTRITIONAL ADDITIVES - Vitamins: Vitamin A (as retinyl acetate) 22.750 IU/kg, Vitamin D3 (as cholecalciferol) 1.570 IU/kg, Vitamin E 145 mg/kg, Vitamin C 40 mg/kg, Calcium Pantothenate 15,53 mg/kg, Coline Chloride 2200 mg/kg,

Potassium Chloride 7.685 mg/kg, Inositol 3 mcg/kg, Thiamine (Vitamin B1) 16 mg/kg, Riboflavin (Vitamin B2) 17 mg/kg, Pyridoxine (Vitamin B6) 5 mg/kg, Vitamin B12 0,10 mcg/kg, Biotin (Vitamin H) 0,30 mcg/kg, Niacin 28 mg/kg, Folic Acid 1,50 mg/kg, L-Carnitine 70 mg/kg, Zinc (Zinc Chelate of Amino Acids Hydrate 329 mg/kg, Zinc Sulphate Monohydrate 275 mg/kg): 148 mg/kg, Iron (Ferrous Sulphate Monohydrate 298 mg/kg, Ferrous Chelate of Amino Acids Hydrate 20 mg/kg): 92 mg/kg, Manganese (Manganous Sulphate Monohydrate 108 mg/kg): 35 mg/kg, Copper (Cupric Chelate of Amino Acids Hydrate 39 mg/kg, Cupric Sulphate Pentahydrate 39 mg/kg): 15 mg/kg, Iodine (Calcium Iodate Anhydrous 1,52 mg/kg): 0,93 mg/kg, Selenium (Sodium Selenite 0,49 mg/kg): 0,22 mg/kg, Amino acids: Methionine 1.800 mg/kg.

Metabolisable energy: 3880 Kcal/kg

A diet is based on the animal's Metabolisable Energy requirements. Metabolisable Energy is defined as the energy in a food that is actually absorbed and used by the animal to perform all of its functions.

**Rich in Omega-3 and Omega-6
younger skin**

A shiny and healthy coat is not only an aesthetic factor. The haircoat performs numerous functions, including thermal insulation and protection from the harmful rays of the sun and of atmospheric agents. A correct supply of Omega-3 and Omega-6 essential fatty acids is important for the coat to preserve its characteristics.

**Contains F.O.S.
Protects the intestinal flora**

F.O.S.s (fructooligosaccharides) are soluble fibres that help the intestinal flora, selectively stimulating their growth and the beneficial action against harmful bacteria. Their effect on the absorption and synthesis of vitamins at the intestinal level is also known.

**Biotin and Zinc
For healthy skin**

Your dog's skin is protected by the correct amount of biotin and zinc, which keep it healthier, with a shiny haircoat. The wellbeing of the coat has a direct relationship with the maintenance of the correct body temperature and with the thermal insulation of the internal organs.

Recommended daily ration (grams per day)

dog size	active dog	less active dog
MINI (< 5 KG)	105	85
SMALL (5 - 10 KG)	105 - 175	85 - 145
MEDIUM (10 - 25 KG)	175 - 345	145 - 285
MAXI (25 - 50 KG)	345 - 580	285 - 475
GIANT (>50 KG)	> 580	> 475
